

Job Title: Production Assembly Fitter
Based at Stowmarket, Suffolk
Reports to Production Supervisor
Hours of Work 7.00am – 3.30pm Mon to Fri

Job Purpose

Reporting to the Production Supervisor, we are looking for an experienced Production Assembly Fitter to join our team to share our passion and pride in assembling the vast range of TIMBERWOLF machinery.

The candidate will receive extensive on the job training and will carry out tasks safely and effectively, meeting the required quality standard within a demanding fast paced environment. You will develop into a multi skilled operative carrying out manufacturing activities and processes in a Lean Manufacturing environment.

Duties and Responsibilities

- The assembly and sub assembly of mechanical, hydraulic and electrical components, in accordance with the manufacturer's instructions.
- Be conversant with Standard Operating Procedures (SOP) and Processes.
- Be conversant with 5S Workplace Organisation.
- Operate a vast range of hand and air operated power tools to assemble machinery.
- Maintain and use all required Personal Protection Equipment (PPE) to carry out tasks.
- Perform the occasional component re-work under instruction and as required by the needs of the Business.

Skills and Attributes

- A wide range of knowledge in Manufacturing and Production processes.
- Practical experience of Lean Manufacturing and Continuous Improvement techniques.
- Strong agricultural or automobile mechanical fitting experience.
- Experienced in the use of a variety of assembly/fitting tools and equipment.
- Can work accurately, calmly and enthusiastically to produce quality machinery.
- Flexible and work well in a team.
- Ability to work to tight deadlines.
- Initiative, adaptive, and willingness to learn.
- Ability to work on own initiative.

Qualifications

Extensive experience in a mechanical background within a Production environment.
Valid UK driving licence.
